**SUPPLYING DRY CLEANING AND LAUNDRY EQUIPMENT**

Dear Sir or Madam,

My pleasure to officially introduce to potential clients, SINANSEL TISA CONSULTING cc as the Africa Agent for LIJING brand, products that are of latest technology and ISO90001. The machines are all certified CE (European Community) with specific Germany and Switzerland certification equating to similar products manufactured in these countries.

Our products are therefore of German quality and at a Chinese price. Don't get us wrong, the quality is equivalent to the same product manufactured in Germany and even better as it carries new technologies that render the machine user friendly.

**Our Target: Hotels and Guest Houses, Dry Cleaning and Laundries, Clinics and Hospitals.**

It takes a total of 45 days for a delivery to be made possible for countries situated on the Eastern side of the African Continent and around 60 days for countries situated on the western side of the continent.

We deliver, install and train the customer or his staff on the usage of the machine. The request pertaining to this shall be introduced early enough to allow preparation for said work. All the machines are guaranteed for a year. An after sales service is available and we are ready to accompany you in the day-to-day running of your business with a unique customer service that will provide peace of mind to you.
